Board of State Canvassers Certifies Federal and State Election Results

ANNAPOLIS (June 14, 2024) – The Board of State Canvassers yesterday certified the 2024 Primary Election results for federal and statewide elected offices and presented its certified findings to the Maryland State Board of Elections (SBE).

"I am pleased to have been part of this process," said Derek Davis, Chairman of the Board of State Canvassers. "Since I was 18, I voted and passed out campaign literature for candidates. It's an awesome responsibility that we have and I just hope people continue to take it seriously and hold it dearly. There are places where people do not have this opportunity and we can never take it for granted."

While Baltimore City and county election results were previously certified at the local level, any contest that includes votes across multiple counties must be certified at the state level. The Board of State Canvassers meets within 35 days of statewide elections to tabulate votes cast for each candidate. The tabulations are made from the certified statements of votes submitted by the local boards of canvassers.

Upon receiving the certified votes submitted by the local boards of canvassers, the Board of State Canvassers issued the Declaration of Results and completed the certification identifying individuals who were elected in the 2024 Primary Election.

"I would like to recognize and thank the staff of the state and local boards that put so much time and effort into ensuring that our elections are safe, secure, transparent and accessible," said Sate Administrator Jared DeMarinis. "It was all their efforts that truly made this election successful."

The certified election results are available [online](#).
